

# Technical Bulletin G2RB

## Riser Assembly

### PARTS:

4x G2 Feet

6x Assy. Screws

4x Bolts

2x Legs

2x Corner Pieces

1x Kick Plate

### STEP 1

Remove feet from bottom of the cooler.

### STEP 2

Start with slotted piece pointing front left as shown above.

### STEP 3

Flip corner piece over and attach the kick plate with the feet you removed in step 1. Save nuts for use in step 7.

### STEP 4

Match the other corner piece and attach the remaining feet.

## STEP 5

Use screws provided to assemble the front left corner.

## STEP 6

Flip over riser and attach legs. \*Support legs should be adjusted to be flat on the floor.

## STEP 7

Use the bolts supplied and the nuts from the feet to connect the riser to the bottom of the cooler.
